

# CADTH Informs

**We help inform decisions in health care.**

---

**Find information through our rapid response service:**

<http://www.cadth.ca/search-rapid-response>

Enter your search criteria in our comprehensive database — under “Devices and Systems” or “Drugs.” The answer to your query may include:

- a summary of abstracts
- a summary with critical appraisal
- a peer-reviewed summary with critical appraisal
- a peer-reviewed rapid review.

Contact your CADTH Liaison Officer ([liaisonofficers@cadth.ca](mailto:liaisonofficers@cadth.ca)) for additional information or if your query produces limited results at this time.

**Inform your drug plan decisions with our drug formulary listing recommendations:**

<http://www.cadth.ca/index.php/en/cdr/search>

Search our drug database to find submission status reports and recommendations on drugs that have been submitted to CADTH for review.

**Use our optimal use products to inform your decision-making:**

<http://www.cadth.ca/index.php/en/hta/reports-publications/search>

<http://www.cadth.ca/index.php/en/compus/compus-publications>

Browse our wide variety of publications that identify evidence-based clinical and cost-effectiveness information. Search through our optimal use products for reports and tools to support the use of this information.

**Anticipate emerging technologies:**

<http://www.cadth.ca/index.php/en/hta/reports-publications/environmental-scans>

Read our environmental scanning reports and information products that identify emerging health care technology issues and can help you better anticipate, plan, and manage the introduction and diffusion of new technologies.

**Access information you can rely on.**

---

The latest, evidence-based information on drugs and other health technologies is available, free of charge, on our website.
