FEBRUARY & MARCH 2012

If you have any questions regarding our courses, please [e-mail us](#).

[Women's Mental Health Day Conference - Register Online](#)

March 2, 2012

Red & White Club – Calgary, AB

Target Audience: Family Physicians, Psychiatrists, Related Health Care Professionals

Managing Mood & Anxiety Disorders in the Perinatal Period. By the end of this program, participants' knowledge will be enhanced regarding the identification and treatment of mood and anxiety issues during pregnancy and postpartum. Participants will be able to explain the key features of anxiety and mood disorders in pregnancy and postpartum, create treatment plans that include both pharmacological and non-pharmacological options, utilize screening tools to assess at-risk moms and develop strategies to assist in the identification of mother-infant attachment issues.

[Using Your Electronic Medical Record to Obtain Meaningful Clinical Data for Patient Care and Decision Making - Register Online](#)

March 9, 2012

Health Sciences Centre – Calgary, AB

Target Audience: Family Physicians, Royal College of Physicians and Surgeons of Canada (RCPSC) Specialists, individuals in clinics who set policy or practices for EMR use, those using the EMR for searches, Related Healthcare Professionals

This course will offer the participant practical tips for clinics getting started with their EMR as well as guidance for the experienced user to obtain high quality data moving forward. The faculty will provide real examples, success stories and recommendations to avoid common pitfalls. As POSP peer leaders, the faculty members have a wealth of experience using their own EMRs and many hours of practice mentoring other EMR users in clinics across the province. Participants will leave with an understanding of best practices and lessons learned as well as practical tips and instructions from the workshops on how to input quality data into the EMR in order to obtain quality information and reports out.

[Therapeutics Pre-Course Motivational Interviewing in Chronic Disease Management - Register Online](#)

March 14, 2012

Health Sciences Centre – Calgary, AB

Target Audience: Family Physician, Related Healthcare Professionals

This is a pre-course to the 29th Annual Calgary Therapeutics Course. After completing this program participants will have developed and enhanced knowledge of the stages of change and motivational interviewing, practiced motivational interviewing skills using clinical case scenarios and enhanced comfort using motivational interviewing skills in clinical practice. Registrants will be grouped into the sessions in accordance with their level of experience with motivational interviewing as indicated on their pre-course questionnaire. Please Note: Registration limited to 60 participants.

[29th Annual Calgary Therapeutics Course - Register Online](#)

March 15 & 16, 2012

MacEwan Student Centre – Calgary, AB

Target Audience: Family Physician, Pharmacists, Nurse Practitioners, Related Healthcare Professionals

In this program family physicians, pharmacists and nurse practitioners will learn about new medications and new indications for "old" products, examine current therapeutic controversies, compare drug and non drug approaches for selected clinical conditions, and review the types of evidence used to support the prescribing of one drug instead of another in the same class of drugs.
