

ANESTHESIA Feedback Report

Implementing a Continuous Feedback System

Calgary Zone | Apr 2018

First Reports Launched!

69 (~38%) anesthesiologists in the Calgary Zone **signed-up** and received their first Anesthesia Feedback Report last month.

Initial feedback shows that of the survey respondents (n=23):

- ▶ **96%** agreed that the report is **easy to navigate**
- ▶ **86%** are **satisfied** with the report
- ▶ **78%** plan to **take steps** to modify a specific aspect of their practice

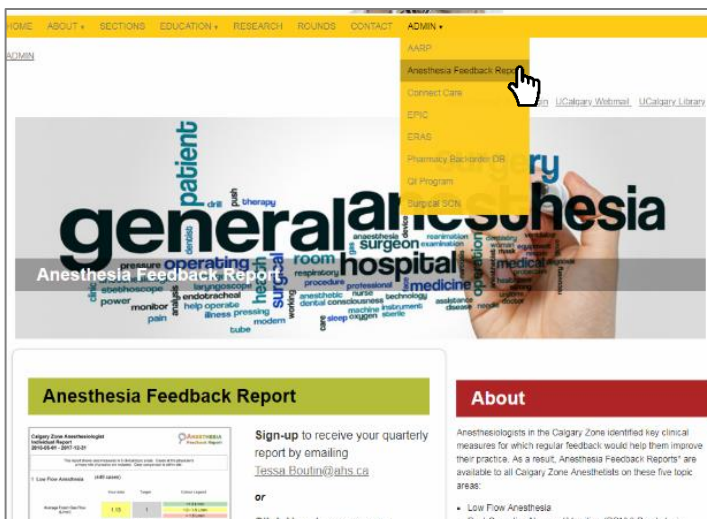

The Anesthesia Feedback Report provides feedback on individual practice patterns in five clinical areas.*

- ✓ Low Flow Anesthesia
- ✓ Post-Operative Nausea / Vomiting (PONV) Prophylaxis
- ✓ Timing of Perioperative Antibiotic Prophylaxis
- ✓ Thoracic Epidural Complication Rate
- ✓ Intraoperative Normothermia

* Data charted on paper anesthetic records are not included. Reports are confidential, with the goal of improving practice.

Website & FAQ's

The Department of Anesthesia website now has links and FAQ's about the Anesthesia Feedback Report. To access it, click on "**Admin > Anesthesia Feedback Report**"
